

BOSSAUTO PAINT SYSTEM

200 ml

400 ml

600 ml

800 ml

Bossauto Paint System (BPS Pro) is a paint and repainting system. Its advantage compared to other products is his new closing system, a lid which incorporates two security clips that allow a fast, safe and pressurized closing without a turn. This system makes the painter's work easier and faster in relation to other systems. Its incorporated filter allows filtering and pulverising in the same solution and includes a cap for a temporal storage of the spare materials. Along with the calibrated mixing cup, the BPS system offers an all-round solution which allows to use the same cup for mixing and painting.
