Anti sliding handle.

Ref. 050001

# MAGNETIC CLAMP

## Flexible / Rigid

The magnetic clamp is especially suitable for painting small pieces: rear mirrors, handles, lids, etc.

## Flexible / Rigid clamp

The 26,5 cm height clamp provides the mobility to facilitate the placement of the object when painting. The base is made of aluminium.

Strong, professional, and fast method for securing parts for hands-free controlled spray painting.

The magnetic base can be anchored to the walls of paint booths even if protected with plastic film or any other stable metal object.

Ideal for use on metal paint booth walls.

As flexible as you want

It's powerful magnet bears up to 1,5 kg in the end.

Powerful magnetic base
