

XFOAM MASKING TAPE

YOUR BEST **FOAM MASKING TAPE** SOLUTION

BOSSAUTO
Everyday Improving

Ref. 100713
ø13 mm

Ref. 100719
ø19 mm

The mask allows masking foam to seal the door, luggage, boots, etc. Preventing the paint from reaching into unwanted places. The foam allows an easy cutting to desired length and size and ensures a proper isolation. The adhesive ensures a successful use without leaving any residue once used.

Strips of adhesive foam roll fuse 50 metres (10 strips of 5 metres). 35 metres or (7 strips of 5 metres). Presented in box-dispensed.

MAIN FEATURES

- It does not produce edges achieving finishes.
- Easy application and faster than any other masking system.
- High performance and protection in every situation between doors, bonnets and tailgates even on heavy vehicles.
- Easy removal from the vehicle without leaving any residue once the work is completed.
- Versatility in other applications such as primers without leaving any edges and facilitating the subsequent sanding.

A DENSITY AND DEFORMATION OF THE FOAM TAPE

Get a total protection on placed areas due to round shape and bigger volume.

B ADHESIVE'S CONTACT

Less contact area between foam and glue reduces the risk of tearing when the masking foam is unwinding.

C ROLL

Get an easy unwinding without tension until the end of the roll is unwinded.

3LINE FILLER MASK

A UNIQUE FILLER MASK IN THE MARKET

BOSSAUTO
Everyday Improving

Ref. 106652

REDUCES APPLICATION TIME

6 STRIPS OF 5 METRES

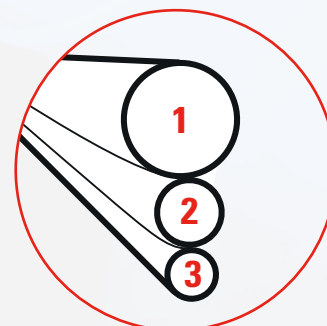

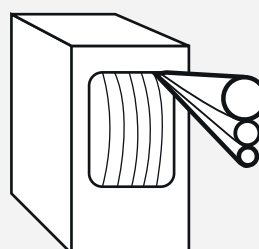

EASY FIXATION

3LINE Filler Mask is a innovative and unique in the market. Is the optimal solution for preventing paint from penetrating non primer and base coat applications, preventing paint from penetrating non desired areas.

The high density foam, extremely consistent and without adhesive, is very flexible. The main feature of our foam tape 3LINE is its versatility. A 3 in 1 product thanks to the 3 different diameters that permit an optimal guide, perfect anchorage and excellent absorption.

The most relevant advantages obtained using our filler mask **3LINE** are:

- Eliminates the edges, getting a perfect and a smooth finish.
- No need to open car doors for placement.
- Highly recommended for masking the joints between doors, on account of its shape it does not detach in vertical areas as opposed to other draught excluder used for surface preparation process.
